S I R:

In response to the Office Action dated July 2, 2003, please
amend the above-identified application as follows:

IN THE CLAIMS:

1. (Previously amended) A water dispersible agrochemical composition comprising a primary agrochemical active ingredient at a level of less than 50% by weight of the composition and a dispersing agent the composition being obtainable by a process comprising preparing a wetted mix in the form of a free-flowing powder comprising the primary active ingredient and the dispersing agent and optionally other components wherein at least one of the dispersing agent and optional other component is liquid and extruding the mix to form granules.

2. (Previously amended) A composition according to claim 1 in which the primary active ingredient is a low use rate active ingredient.
